## Carbon Reduction Plan

### Emissions reduction targets

In order to continue our progress to achieving Net Zero, RVC have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to TBC tCO<sub>2</sub>e. We are aiming for an initial reduction of 50%.

### Carbon Reduction Projects

The following environmental management measures and projects have been completed or implemented since the 2024 baseline. The carbon emission reduction achieved by these schemes equate to TBC tCO<sub>2</sub>e, a TBC %ge reduction against the 2024 baseline and the measures will be in effect when performing the contract.

- Change of Management Cars from fossil fuels to BEV
- Change of General Use Van from fossil fuel to BEV
- Installation of EV Charging points
- Solar Powered Energy to offices
- Biomass Boiler for heating and hot water in offices
- LED lighting to all areas of the business
- Sensor and timer-controlled lighting for offices
